Education

Bachelor of Science in Mechanical Engineering, Engineering Innovation & Engineering Leadership Certificates

University of Florida, Gainesville, FL

GPA: 3.6/4.0

Khalifa University, Abu Dhabi, United Arab Emirates

University of Florida Study Abroad College of Engineering

Research Experience

Research Analyst – S&P Global

June 2025 – Current

- Collaborating with cross-functional and regional teams to analyze market dynamics and support strategic growth
- Applying quantitative techniques and tools (e.g., Python, Excel, Alteryx) to perform data analysis and improve workflows
- Engineer automated validation process reducing database comparison time from 20 hours to 30 minutes for oil data
- Partner with database teams, engineers, and project managers to align data and enhance enterprise-wide offerings
- Develop visual analytics tools and repeatable processes for refinery capacity data, ensuring client engagement

Computer-Enabled Abilities Laboratory (PI: Dr Brian A. Smith)

May 2022 – December 2022

Dept. of Computer Science, Columbia University

- Pioneered the development of a system to enhance accessibility for 99+ blind and low vision users
- Authored publications on accessible design within multiple conferences surrounding human computer interaction
- Facilitated 10 user studies, to grasp usability and user experience informing the project's design improvement

Game-Based Learning and Digital Experiences Laboratory (PI: Dr Philip Jackson)

August 2021 – May 2022

Dept. of Engineering Education, University of Florida

- Implemented virtual/augmented reality systems with a strong focus on teaching technical engineering concepts
- Communicated concepts with fellow researchers while seamlessly incorporating them using Unity software
- Developed an innovative platform tailored for engineering curriculum, facilitating enhanced learning outcomes

Projects

Data Science Hackathon - Georgia Institute of Technology

February 2026

- Built a Medallion Architecture data pipeline in Databricks, ingesting United Nation's data into Delta Lake tables
- Engineered custom features including Need Proxy and population fallbacks, resolving platform constraints
- Led project integration across data ingestion, ML training, vector indexing, and [frontend deployment](#)

Data Analytics Fellow - COOP Careers

August 2024 – January 2025

- Refining data analysis and visualization skills using SQL, R, Python, and Tableau, finishing 3 capstone projects
- Completing 200 hours of hands-on experience producing 10+ reports complete with dashboards and data insights
- Evaluated viewability and conversion rates, excluding underperforming sites, and reducing ad spend waste by 15%

Codedex Summer Hackathon

July 2024

- Analyzed a dataset of 11,000 athletes from the 2021 Tokyo Olympics with NumPy and Pandas for predictive insight
- Built and tested a linear regression model; transitioned to a random forest regressor to improve accuracy by 20%
- Designed and implemented data visualizations to present findings, featured on a custom-built [website](#)

University of Florida Integrated Product and Process Design (Arthrex)

August 2023 – May 2024

- Collaborated with an interdisciplinary team to conceptualize, design, and develop a specialized medical product
- Conducted testing and modeling of materials and sensors using SolidWorks, MATLAB, LabVIEW and 3D-printing
- Presented project, offering comprehensive insights and implementing feedback-driven redesigns

48-Hour Repack Student Design Competition

February 2022, 2023

- Developed functional and sustainable packaging prototypes, addressing practical and material-efficient solutions
- Created physical samples, promotional materials, and design justifications for industry professionals' evaluation

Internship Program - Out in Tech

August 2022 – December 2022

- Examined data from 20,000 respondents to empirically analyze statistical disparities within the tech industry
- Developed insights into career growth and industry challenges through biweekly mentoring sessions with experts

Experience

Summer Venture in Management Program (SVMP) - Harvard Business School

June 2024

- Engaged in the case method, analyzing real-world business scenarios to enhance critical thinking and decision-making

- Partnered with a diverse cohort of peers, fostering leadership abilities and expanding professional networks
- Immersed in discussions on various business topics, including leadership, strategy, and entrepreneurship

Vice President - American Society Mechanical Engineers

August 2023 – May 2024

- Spearheaded communication with 10+ guest speakers and ensure the execution of 5 high-profile events
- Established relationships with 5+ external organizations to enhance student offerings and opportunities
- Coordinated workshops and events with other campus organizations to increase student engagement by ~75%

Alumni Coordinator - Society of Asian Scientists and Engineers

August 2021 – April 2022

- Drove significant improvements in interaction/engagement among 120-chapter members and a network of alumni
- Orchestrated over 50 meetings with alumni and students, enriching networks and professional development

Event Director - Society of Hispanic Professional Engineers

August 2019 – May 2020

- Organized 3 workshops for 80 members, featuring essential topics like interview preparation and resume reviewing
- Collaborated weekly with other directors to strategize workshop leadership, optimizing session planning/execution

Mentorship

Mentor - University of Florida, Asian Pacific Islander Desi Affairs

June 2021 – May 2024

- Provided over 300 students with guidance/resources, empowering them to excel in their undergraduate journey
- Conducted monthly meetings with students, fostering open dialogue and providing guidance for their future goals

STEM Outreach Coordinator - Air Force Research Laboratory

May 2021 – August 2021

- Mentored 99+ students in hands-on projects, developing expertise in instructional leadership and problem-solving
- Created a comprehensive curriculum, fostering proficiency in critical thinking and creativity through projects
- Completed a technical engineering memorandum showcasing expertise and depth of knowledge in the field

Service

Coach - Special Olympics of Florida

August 2018 – January 2023

- Cooperated closely with a diverse group of 30 athletes, to create a secure and inclusive athletic environment
- Led and facilitated weekly 2-to-3-hour practices designed to challenge and enhance athletes' skills

Science Olympiad at the University of Florida

January 2019 – December 2022

- Managed over 10 Science Olympiad events, ensuring smooth operations and delivering essential event materials
- Encouraged young students to embrace their passion for STEM through challenging projects and workshops

Engineers Without Borders (EWB), University of Florida Chapter

August 2021 – August 2022

- Collaborated with 40 engineering students to design/implement a water storage system, improving access to water
- Established connectivity across multiple team components to efficiently aid underrepresented populations
- Conducted regular quality checks, ensuring the system met safety, sustainability, and humanitarian standards

Presentations

Enhancing Blind and Low Vision Viewers' Ability to Visualize Tennis Gameplay via Co-design

August 3, 2022

Summer Undergraduate Research Experience (SURE) Program Symposium Columbia University, New York City, NY

Publications

Gaurav Jain, Basel Hindi, Connor Courtien, Xin Yi Therese Xu, **Conrad Wyrick**, Michael Malcolm, and Brian A. Smith. 2023. Front Row: Automatically Generating Immersive Audio Representations of Tennis Broadcasts for Blind Viewers. In Proceedings of the 36th Annual ACM Symposium on User Interface Software and Technology (UIST '23). Association for Computing Machinery, New York, NY, USA, Article 39, 1–17. <https://doi.org/10.1145/3586183.3606830>

Gaurav Jain, Basel Hindi, Connor Courtien, **Conrad Wyrick**, Xin Yi Therese Xu, Michael C Malcolm, and Brian A. Smith. 2023. Towards Accessible Sports Broadcasts for Blind and Low-Vision Viewers. In Extended Abstracts of the 2023 CHI Conference on Human Factors in Computing Systems (CHI EA '23). Association for Computing Machinery, New York, NY, USA, Article 287, 1–7. <https://doi.org/10.1145/3544549.3585610>

Awards

- Herbert Wertheim College of Engineering Horatio Alger Scholarship **2020 – 2024**
- Florida Bright Futures Scholarship **2019 – 2024**
- American Society of Mechanical Engineers Petroleum Division Scholars **2023**
- Dr. Ralph Alexander Morgen StepUp Program Endowment **2023**
- Peter Beczkiewicz Memorial Scholarship **2019 – 2021**
- American Society of Mechanical Engineers Auxiliary Lucy and Charles W.E. Clarke Scholarship **2019**

- Society of Military Engineers Emerald Coast Post Scholarship

2019

Memberships

American Society of Mechanical Engineers, Engineers Without Borders, Association for Computing Machinery, Society of Asian Scientists and Engineers, Society of Hispanic Professional Engineers, American Society of Civil Engineers, Society of American Military Engineers

Skills

Python: NumPy and Pandas, SQL, Tableau, R, MATLAB, Unity, Java, SolidWorks, Autodesk Inventor, LabVIEW, Microsoft Office Suite, 3D printing, CNC/Mill/Lathe machining, previous Secret Security Clearance U.S. Government, Lean 6 Sigma White Belt
